At the request of *Mr David Mourad* of Import Racing, a veterinary examination of the above horse was undertaken at Lilywhites Lodge, Barn I, New Zealand Bloodstock, Karaka, New Zealand on the 17<sup>th</sup> November, 2022.

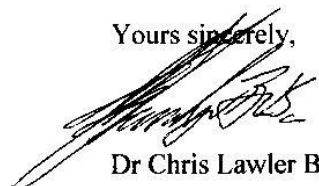

**Clinical Examination**

The clinical examination included heart, ophthalmic eye examination, teeth examination, limb flexion and joint palpation which were normal. The horse was examined at rest and at the walk. There was no evidence of previous abdominal surgery, infection or disease, lameness, laminitis or ataxia.

In my opinion, at this time, the Iffraaj x Our Kismet '20 presented as suitable for purchase as a racehorse as can be determined from the examination performed as described. Iffraaj x Our Kismet '20 is suitable for public syndication and mortality insurance.

I confirm that I do not have any current or intended future financial or other interest in the above-mentioned horse, the proposed syndication or Import Racing and this letter may be relied upon by prospective investors who invest in this horse.

Yours sincerely,

Dr Chris Lawler BVSc
